Topic: Causes of Decreasing Tourism in Thailand

Topic Sentence: Tourism is declining Thailand for these possible reasons.

Closing Sentence: The above are among the most possible and most common reasons for the decrease in tourism in Thailand.
Now let’s write a unified paragraph from this given topic.

**Causes of Decreasing Tourism in Thailand**

Tourism is declining in Thailand for these possible reasons. To begin, there are simply more choices. Many countries including the middle east are resorting to tourism to get a second income. Second, similarly, these same countries try to develop their resources to attract investment. Third, Thailand is less secure than it was during Chatchai’s administration. There are scandals within the stock market such as FCI and possible coups as well; therefore, the foreign investor worries about his returns. Last, Thai shops double price foreign tourists. Tourists and tour guides are overcharged in order to make a profit. Many disappointed tourists may warn their friends from it. The above are among the most possible and most common reasons for the decrease in tourism in Thailand.

   - may become gangsters and criminals

Closing Sentence: The broken home can be repaired or the children's lives can be changed for the better.
The Sentence Outline

**Topic**: The Effects of a Broken Home on Children

**Topic Sentence**: Consequences of the broken home are serious for small children and may include these four especially.

1. Children will lack essential love and evidence.
   - They may not know how to act and live among society.

2. It produces wanton and reckless behavior among them.
   - Without need and want from other, they will rebel against people and society.

3. They might be ostracized from society.
   - Society will not accept destructive and disrespectful citizens.

4. They will feel more bitter and resentful.
   - They become dangerous to themselves and others; they may become gangsters and criminals.

**Closing Sentence**: The above are among the most possible and most common reasons for the decrease in tourism in Thailand.
Consequences of the broken home are serious for small children and may include these four especially. First these children will lack the essential love and guidance which they should have. Children who lack proper guidance may not know or understand how to act and live among society. This produces wanton and reckless behavior (delinquency) among them. When the children cannot get what they need and want from others, they will rebel against those people and may be destructive to their society. Third, due to their behavior, the children will be ostracized from their society. Society will not accept destructive and disrespectful citizens and will further separate those children. Finally, separated from society, the children will feel more bitter and resentful and may become dangerous to themselves and others. They may become gangsters and criminals, among others. The broken home can be ‘repaired’ or the children’s lives can be changed for the better when the responsible persons realize the effect they have caused for the children, however, if unchanged, the problem will certainly lead to the effects I have discussed.

Causes of Vote-Buying in the Election

A. This may be due to the fact that his record bears witness to his greed and abuse of power, and he does not mention it in public; or, he may be a totally new member and have no record at all.

B. In any case, vote-buying is an established practice and has many and unexpectable reasons, as mentioned above.

C. To begin, the MP who buys votes may lack enough self-confidence to depend upon his record in Parliament alone.

D. Furthermore, his constituency is doubtlessly a poor, underdeveloped province and he dumps the money or spends it on gifts to his constituents, to ensure they support him in the election.

E. Thai Members of Parliament (MPs) have bought votes for many years and have the following diverse reasons.

F. A third possibility is that the candidate desires to be re-elected or hold the ministerial post, etc., and will try to get it “by hook or by crook.”

G. As most people in his constituency are poor and have few possessions, a Mitsubishi refrigerator or Sony colour television set is impressive and he will promise to supply it to whoever supports his campaign.

H. This is simply corruption and stems from the candidate’s background. He may have been a selfish, grasping businessman thinks only about earning more money and not how to help his constituents.
