Malaysian central bank cuts rates by 0.5% to 7%

*Kuala Lumpur, AFP*

*The Malaysian central bank announced yesterday it was lowering its three-month intervention rate in the short-term money market from 7.5% to 7% with immediate effect.*

“This reduction in the policy rate is to reflect the downward trend in the expected inflation rate as well as to sustain recent positive developments in the economy,” Bank Negara Malaysian said in a statement.

“It should result in a further easing of lending rates to support the revival of economic activity,” it added,

**Esso targets pickup sales**

Esso Thailand, Plc yesterday introduced a new motor oil for pickups, timed to coincide with the start of an expected revival in sales of the popular type of vehicle.

The new lubricant, Essolube Pick-Up Turbo Speed, came as major automakers including Toyota and Ford started promoting new pickup models.

Esso Thailand chairman and managing director Edward Calante said the new lubricant was a partly synthetic engine oil developed in Britain for high-performance diesel engines.

Esso has also developed another diesel oil, Essolube Pick-Up, for heavily-laden and conventional pickups, to replace Essolube XD-3 Extra Pick-Up (gold cap).

Essolube Pick-Up is a multigrade lubricant for diesel engines with special additives that break the flakes of soot into relatively harmless microscopic particles.
It can lengthen the life of the oil as well as the life of the engine.
