What Is Sports News?

Sports news is in the sports section of a newspaper in which the sportswriter reports the scenes of sports, tournaments and games such as athletics, football, baseball, basketball, volleyball, handball, softball, tennis table tennis, boxing, swimming, gymnastics, archery, fencing, golf, squash, shooting, rowing, rugby football, American football, hockey, billiards and snooker, wrestling, bowling, canoeing, cycling, equestrian events, taekwando, judo, sepak takraw, weightlifting, yachting, and Muay Thai.

The Styles of Sports Writing

Similar to other types of news stories, a sports news story consists of the headline, lead and body. The difference lies, however, in its use of precise, concise, lively, attractive and informal language because some critics refer to the sports department as the toy department of newspapers.’ In the past, sports writers were fond of using flowery prose, cliché’s, (such as ‘Bang the apple’) but in general today’s sports pages are tilled with better, more balanced writing than ever before.’

2 Itule, p. 463.
Some of today’s best sports writing certainly includes valuable statistical information and essential ingredients such as who won, what the score was, and who starred.’ In other words, the language of sports writing should be plain and correct, for example, call it the football, not the pigskin, kick or throw the ball, not toe the ball.
